Test Cases

Header (unauthorised) 3

C46: Redirecting to the start page by clicking on a logo in a header

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type	**Is Automated**		
None	No		
Test Case Labels			

Preconditions

1. The website HealthyHub is opened in a browser (https://healthy-hub-qa.f.goit.study/)
2. The user is unauthorised and unregistered

Steps

1	Click the logo in header	The start page is open

C47: Redirecting to the Sign Up page by clicking the "Sign up" button in a header

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type	**Is Automated**		
None	No		
Test Case Labels			

Preconditions

1. The website HealthyHub is opened in a browser (https://healthy-hub-qa.f.goit.study/)
2. The user is unauthorised and unregistered

Steps

1	Click the 'Sign up' button in a header	A Sign Up page is opened

C48: Redirecting to the Sign In page by clicking the "Sign in" button in a header

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type	**Is Automated**		
None	No		
Test Case Labels			

Preconditions

1. The website HealthyHub is opened in a browser (https://healthy-hub-qa.f.goit.study/)
2. The user is unauthorised and unregistered

Steps

1	Click the 'Sign in' button in a header	A Sign In page is opened

Start page 3

C49: Opening the Sign Up page by clicking the "Sign up" button on the Start page

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type	**Is Automated**		
None	No		
Test Case Labels			

Preconditions

1. The website HealthyHub is opened in a browser (https://healthy-hub-qa.f.goit.study/)
2. The user is unauthorised and unregistered

Steps

1	Click the 'Sign up' button on the Start page	A Sign Up page is opened

C50: Opening the Sign In page by clicking the "Sign in" button on the Start page

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type	**Is Automated**		
None	No		
Test Case Labels			

Preconditions

1. The website HealthyHub is opened in a browser (https://healthy-hub-qa.f.goit.study/)
2. The user is unauthorised and unregistered

Steps

1	Click the 'Sign in' button on the Start page	A Sign In page is opened

C51: Displaying the list of main functions of the application on the Start page

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type	**Is Automated**		
None	No		
Test Case Labels			

Preconditions

1. The website HealthyHub is opened in a browser (https://healthy-hub-qa.f.goit.study/)
2. The user is unauthorised and unregistered

Steps

1	Observe the Start page	The list of main functions of the application is displayed

Registration 9

C52: Displaying the 'Name' field on the Sign Up page

Type	Priority	Estimate	References

Functional	Medium	None	None
Automation Type	**Is Automated**		
None	No		
Test Case Labels			

Preconditions

1. The Sign Up page of the website HealthyHub is opened in a browser (https://healthy-hub-qa.f.goit.study/signup)

2. The user is unauthorised and unregistered

Steps

1	Observe the form of the Sign Up page	A 'Name' field is displayed on the Sign Up form

C53: Displaying the 'E-mail' field on the Sign Up page

Type	**Priority**	**Estimate**	**References**
Functional	Medium	None	None
Automation Type	**Is Automated**		
None	No		
Test Case Labels			

Preconditions

1. The Sign Up page of the website HealthyHub is opened in a browser (https://healthy-hub-qa.f.goit.study/signup)

2. The user is unauthorised and unregistered

Steps

1	Observe the form of the Sign Up page	The 'E-mail' field is displayed on the Sign Up form

C54: Displaying the 'Password' field on the Sign Up page

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type	**Is Automated**		
None	No		
Test Case Labels			

Preconditions

1. The Sign Up page of the website HealthyHub is opened in a browser (https://healthy-hub-qa.f.goit.study/signup)

2. The user is unauthorised and unregistered

Steps

1	Observe the form of the Sign Up page	A 'Password' field is displayed on the Sign Up form

C55: Signing up with an email without '@' , a valid password and name

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type	**Is Automated**		
None	No		
Test Case Labels			

Preconditions

1. The Sign Up page of the website HealthyHub is opened in a browser (https://healthy-hub-qa.f.goit.study/signup)

2. The user is unauthorised and unregistered

Steps

1	Enter an email without '@'	An email is entered
2	Enter a valid name	The name is entered
3	Enter a valid password	The password is entered

4	Click the 'Next' button	The message 'Not valid e-mail' is displayed

C56: Signing up with a valid email and name, a password with 1 character

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type	**Is Automated**		
None	No		
Test Case Labels			

Preconditions

1. The Sign Up page of the website HealthyHub is opened in a browser (https://healthy-hub-qa.f.goit.study/signup)

2. The user is unauthorised and unregistered

Steps

1	Enter a valid email	The email is entered
2	Enter a valid name	The name is entered
3	Enter a password with 1 character	The password is entered
4	Click the 'Next' button	The message 'Enter a valid Password' is displayed

C57: Signing up with a valid email and name, a password with 20 characters

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type	**Is Automated**		
None	No		
Test Case Labels			

Preconditions

1. The Sign Up page of the website HealthyHub is opened in a browser (https://healthy-hub-qa.f.goit.study/signup)

2. The user is unauthorised and unregistered

Steps

1	Enter a valid email	The email is entered
2	Enter a valid name	The name is entered
3	Enter a password with 20 characters	The password is entered
4	Click the 'Next' button	The message 'Enter a valid Password' is displayed

C58: Signing up with a valid email and password, an invalid name

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type	**Is Automated**		
None	No		
Test Case Labels			

Preconditions

1. The Sign Up page of the website HealthyHub is opened in a browser (https://healthy-hub-qa.f.goit.study/signup)

2. The user is unauthorised and unregistered

Steps

1	Enter a valid email	The email is entered
2	Enter a valid password	The password is entered

3	Enter an invalid name	The name is entered
4	Click the 'Next' button	The message 'Not valid name' is displayed

C59: Signing up with empty 'Name', 'E-mail' and 'Password' fields

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type	**Is Automated**		
None	No		
Test Case Labels			

Preconditions

1. The Sign Up page of the website HealthyHub is opened in a browser (https://healthy-hub-qa.f.goit.study/signup)

2. The user is unauthorised and unregistered

3. The 'Name', 'E-mail' and 'Password fields are empty

Steps

1	Click the 'Next' button	Error messages are displayed near each empty field

C60: Signing up with a valid name, email and password

Type	Priority	Estimate	References
Functional	High	None	None
Automation Type	**Is Automated**		
None	No		
Test Case Labels			

Preconditions

1. The Sign Up page of the website HealthyHub is opened in a browser (https://healthy-hub-qa.f.goit.study/signup)

2. The user is unauthorised and unregistered

Steps

1	Enter a valid name	The name is entered
2	Enter a valid email	The email is entered
3	Enter a valid password	The password is entered
4	Click the 'Next' button	The user is redirected to the next step of the registration process

Page 'Your goal' (registration) 5

C61: Displaying the correct title and subtitle on the page 'Your goal'

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type	**Is Automated**		
None	No		
Test Case Labels			

Preconditions

1. The user has passed the first step of the registration

2. The page 'Your goal' of the website HealthyHub is opened

Steps

1	Observe the title of the page	The title 'Your goal' is displayed on the page
2	Observe the subtitle of the page	The subtitle 'Choose a goal so that we can help you effectively' is displayed

C62: Navigation to the next registration step with default goal selected

Type	Priority	Estimate	References

Preconditions

1. The user has passed the first step of the registration
2. The page 'Your goal' of the website HealthyHub is opened
3. The default goal 'Lose Fat' is selected

Steps

1	Click the 'Next' button	The next page of the registration process is opened

C63: Navigation to the previous registration step when clicking the button 'Back'

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type	**Is Automated**		
None	No		
Test Case Labels			

Preconditions

1. The user has passed the first step of the registration
2. The page 'Your goal' of the website HealthyHub is opened

Steps

1	Click the 'Back' button	The previous page of the registration process is opened

C64: Changing the user's goal selection using radio buttons

Type	Priority	Estimate	References

Functional	Medium	None	None
Automation Type	**Is Automated**		
None	No		
Test Case Labels			

Preconditions

1. The user has passed the first step of the registration

2. The page 'Your goal' of the website HealthyHub is opened

3. The default goal 'Lose Fat' is selected

Steps

1	Click a 'Maintain' radio button	1. A radio button is selected 2. The previously selected option ('Lose Fat') is unselected
2	Click a 'Gain Muscle' radio button	1. A radio button is selected 2. The previously selected option ('Maintain') is unselected
3	Click a 'Lose Fat' radio button	1. A radio button is selected 2. 2. The previously selected option ('Gain muscle') is unselected

C65: Navigation to the next registration step after changing goal selection

Type	**Priority**	**Estimate**	**References**
Functional	Medium	None	None
Automation Type	**Is Automated**		
None	No		
Test Case Labels			

Preconditions

1. The user has passed the first step of the registration

2. The page 'Your goal' of the website HealthyHub is opened

3. The 'Maintain' is goal selected

Steps

1	Click 'Next' button	The next page of the registration process is opened

Page 'Select gender, Age' (registration) 7

C66: Displaying the correct title and subtitle on the page 'Select gender, Age'

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type	**Is Automated**		
None	No		
Test Case Labels			

Preconditions

1. The user has passed the second step of the registration

2. The page 'Select gender, Age' of the website HealthyHub is opened

Steps

1	Observe the title of the page	The title 'Select gender, Age' is displayed on the page
2	Observe the subtitle of the page	The subtitle 'Choose a goal so that we can help you effectively' is displayed

C67: Changing the user's gender selection using radio buttons

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type	**Is Automated**		
None	No		
Test Case Labels			

Preconditions

1. The user has passed the second step of the registration

2. The page 'Select gender, Age' of the website HealthyHub is opened

3. The default gender 'Male' is selected

Steps

1	Click a 'Female' radio button	1. A radio button is selected 2. The previously selected option ('Male') is unselected
2	Click a 'Male' radio button	1. A radio button is selected 2. The previously selected option ('Female') is unselected

C68: Navigation to the previous registration step when clicking the button 'Back'

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type	**Is Automated**		
None	No		
Test Case Labels			

Preconditions

1. The user has passed the second step of the registration

2. The page 'Select gender, Age' of the website HealthyHub is opened

Steps

1	Click the 'Back' button	The previous page of the registration process is opened

C69: Clicking on the 'Next' button with empty 'Your age' field and selected gender

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type	**Is Automated**		
None	No		
Test Case Labels			

Preconditions

1. The user has passed the second step of the registration
2. The page 'Select gender, Age' of the website HealthyHub is opened
3. The gender 'Male' is selected
4. The field 'Your age' is empty

Steps

1	Click the 'Next' button	The message 'Not valid age' is displayed

C70: Clicking on the 'Next' button with invalid age (text) and selected gender

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type	**Is Automated**		
None	No		
Test Case Labels			

Preconditions

1. The user has passed the second step of the registration
2. The page 'Select gender, Age' of the website HealthyHub is opened
3. The gender 'Male' is selected
4. An invalid age is entered

Steps

1	Click the 'Next' button	The message 'Not valid age' is displayed

C71: Clicking on the 'Next' button with invalid age (negative numbers) and selected gender

Type	Priority	Estimate	References
Functional	Medium	None	None
